

Please consider this email as our opposition to tolls in Connecticut of ANY kind, border or non-border. We are taxed enough already in this state. On top of high gas taxes, property taxes, a state income tax, your now going to saddle us with tolls too? Once in place, you will rely on them forever. It's an old idea, been tried before, didn't work then and won't work now. It will cause more problems than it will solve. We've got to get our SPENDING under control in this state at some point!

Please explore other alternative ways to fund our transportation system. Increase our existing mass transit. Try raising some existing state, property, clothing, motor vehicle, conveyance, gas, etc, tax first. Designate that portion only for improving our highways and bridges and UNTOUCHABLE for any other purpose! Then phase it out after an agreed upon time frame or dollar amount has been raised or project completed. Create a special Highway Improvement bond people could invest in! Or do all the above. But NO TOLLS!!!!

Sincerely,

Tom and Liz Eaton
